Thank you to the Starmount and Forbush Schools for allowing us to set up weekly and share information on Safe Dating.

February was Teen Dating Violence Awareness Month. It is important to make our teens aware of the resources available in our community.

Every year, approximately 1.5 million high school students nationwide experience physical abuse from a dating partner.

Teen dating violence is defined as a pattern of abuse or threat of abuse against teenaged dating partners, occurring in different forms, including verbal, emotional, physical, sexual and digital.

Our Senior Centers participated in the Girl Scout Intergenerational Training Program concerning elderly issues

Today's children and older people have limited opportunities for meaningful interaction in a country increasingly segregated by age. The generations are divided emotionally, physically, and socially while missing exciting opportunities to learn and share.

This program allows our senior community to interact with the younger generation and to share some experiences of senior issues.

We teach them how to be sensitive to senior adults ("Sensitivity Training") by stuffing cotton in their ears and calling bingo, cloudy glasses for reading, opening bottles with gloves on; showing how hard it could be for seniors.
